# 1. Introduction of ModelDoge

ModelDoge has learned a few tricks and successful experiences from his father, Doge. This new crypto token was born as a meme symbol by fans of the Doge family community. It was deployed by a group of Tesla fans and experienced crypto individuals on 11th April 2022. Total supply is 1000,000B and burnt 97.3% tokens after launched. The rest of the ModelDoge added to liquidity. Everyone only can buy ModelDoge from the Liquidity.

Today, ModelDoge is also fully driven by its strong supportive community. In fact, we're following in Doge's footsteps.

## 2. Background

ModelDoge is establishing the new standard of DeFi Tokenomics with its innovative and game-changing Smart Contracts. Smart contracts are simply programs stored on a blockchain that run when predetermined conditions are met without any intermediary's involvement or time loss. Based on the Binance Smart Chain(BSC) Blockchain, Every Buy/Sell transaction in ModelDoge is taxed and used to fund the Doge passive income and advanced mechanisms like automatic add liquidity on decentralized exchanges.

ModelDoge automatically rewards its holders with a relatively stable mainstream Dogecoin, which is unprecedented in cryptocurrency history.

ModelDoge helps to reduce the risks involved with cryptocurrency market volatility. Over time, holders can earn enough Doge rewards to cover their initial investment, turning their investment into a cost-free asset. .

ModelDoge is a token for the crypto investor who wants to be rewarded for their long-term investing. Establishing an innovative concept where investors no longer need to worry about their investment doubling to make profits; instead, they can earn a passive income from Doge rewards while watching their portfolio grow.

### **Community**

ModelDoge has a united, friendly and enthusiastic community, and we are completely transparent and open to all members.

We believe in the strength of the DAO community. We've got lots talented people who can work together, who can offer the project huge potentials, who can push ModelDoge to the moon eventually.

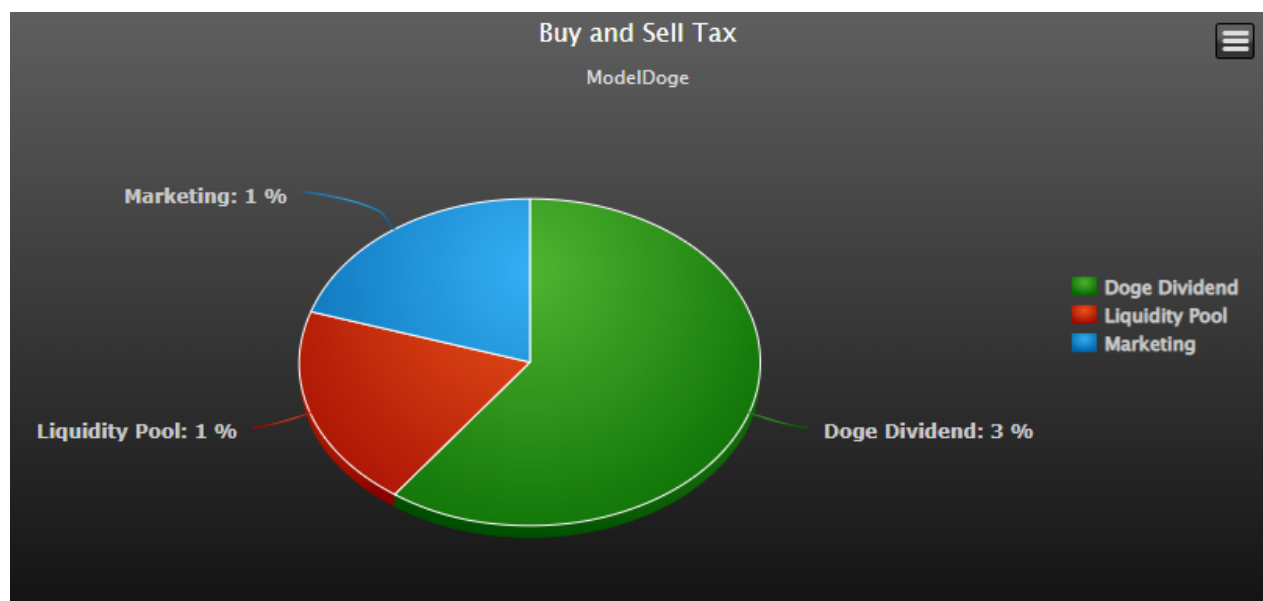

### 3. Economic Model

The growing ModelDoge Ecosystem includes GameFi, Defi, NFT and Metaverse etc. As more gameplay becomes available, ModelDoge will expand Doge universe and appeal to more players around the world.

ModelDoge does not only grow in your wallet, but also has lots of bonuses like passive Doge income! ModelDoge is a top crypto currency, integrating Deflation, Staking, and Charity marketing. It will become more rare and multifunctional, and develop its own Swap application. ModelDoge will bring more and more value to all holders.

### Tokenomics

- Token Name: ModelDoge
- Total Supply: 1 Quadrillion
- Token Burnt: 97.3% of token
- Circulating Supply: 0.027 Quadrillion

## Security

ModelDoge token will be subject to a smart contract security audit in the future and its LP(liquidity pool) has been locked to 2049. This also means that ModelDoge will never have its liquidity pulled, distribution manipulated, or have any malicious person be able to harm the project.

And as mentioned before, the dev of this ModelDoge didn't hold any tokens. Yes, no dev is going to dump on you, because he doesn't have any tokens and ownership is renounced.

You can safely invest in ModelDoge, protect your pocket money, and it will pay off in unexpected ways over the long term.

## 4. Future Plan

### Our roadmap

#### PHASE 1.

Core Development  
Marketing (ads/influencers)  
Airdrop  
Project build  
Website building  
Contract deployment  
1000 Holders

#### PHASE 2.

CoinMarketCap Listing  
CoinGecko Listing  
Community airdrop  
Certik Audit  
5000 Holders  
\$50M Marketcap  
ModelDoge game development NFT's

#### PHASE 3.

Listing on CEX  
Explosive marketing  
NFT sales activities  
Implement a stray dog charity program  
The first ModelDoge mini game launched
